precedent and say to the country mildly, but candidly, that all of the noise and alarms in the Senate and House of Representatives are not necessarily indicative of governmental collapse and national decay.

The President, it would seem, has committed the high crime of suggesting to the people that they need not take Congress taking itself. And as a consequence Congressional vocabularies are being strained to the utmost and the casily generated indignation of partisan oratory has been unleashed.

Seven families were made homeless and property damage estimated at \$750,000 was done by a hurrican which swept Green Acres, two miles west of Lake Worth early to-day.

Scores of persons were injured and physicians were sent from Lake Worth to attend them. The city is organizing for relief work.

than a half-century, a ghost has arisen from a grave here to lay claim to a share in the millions of Senator William A. Clark, the West's most giltering financial prince, who died last March. Senator William A. Clark, the West's most gilttering financial prince, who died last March.

The little grave is known as that of Mrs. William A. Clark.

A secret locked in the heart of the "woman forgotten" for more than a half a century is being brought to light in an attempt to lift the weil from the early life of the mining millionaire, before he started his climb to diszy heights of millions. Three sisters, claiming to be daughters of a marriage unknown to the world that knew the "prince of good follows," are seeking to lay claim to \$15,000,000 of the \$50,000,000 Clark estate.

DATES IN CONFIGURE. Vice-President becomes a candidate for President he will refuse to take any money from the coal barbns of this country, for then he will make an appeal to the poor of this country which will make certain his election."

Senator Wheeler started out by saying he was not surprised that the President had imputed political motives to those who were demanding investigation of various branches of the administration because it was Mr. Coolidge who sent a communication to the Senate two years ago designed to halt the investigation of the scandals then in progress. He said that all Mr. Coolidge's Department of Justice had done until recently was to investigate and persecute Senators who had investigated the Navy oil scandal and Harry Daugherty. He had reference particularly to the indictment of himself following the Senate investigation of Daugherty, which he directed.

The Montana Senator then read a newspaper account of the efforts of the New York grand fury to

Wheeler, "it now appears that part of the records which he sought were by Mal Daugherty turned over to his brother, Harry Daugherty, and that Harry Daugherty burned the records."

STOCKTON, Feb. 3.—J. W. Cain, manager of an auto camp at Lodi, committed suicide at his home by swallowing poison. He left several rambling notes, written a few minutes before he took poison, none of which explain clearly why he wanted to die. According to Mrs. Cain, her husband arose during the night and after returning to bed, he told her he was sick. He refused, however to allow her to cail a doctor.

CHICAGO, Feb. 3.—Church organizations for young people atford a safe outlet for self-expression and may have forestalled a revolt of American youth, it was asserted here today by Dr. Blaine E. Kirkpatrick, superintendent of the Epworth League, in his report before the annual meeting of the Board of Education of the Methodist-Episcopai Church.

The much-discussed

before the annual meeting of the Board of Education of the Methodist-Episcopal Church.

The much-discussed "youth movement" in the churches is not a new thing but has had a steady growth for years. Dr. Kirkpatrick said, and while there may not be a technical youth movement in America, the spirit is evident.

Dr. Kirkpatrick reported a total of 19,280 Epworth League chapters. 2025 of which are in foreign lands. The total membership is 701,508.

The principal formal action of the education board today was a unanimous indorsement of the proposed Lincoln and Lee University at Kansas City as a Methodist institution. The board members also considered reports from forty universities, colleges and secondary schools under the auspices of the church which represent a total real property value approximating \$100,000,000.

Gold Medals for Men Who Saved Antinoe Crew

Legion Urged for Officers of President Roosevelt

Tiancee Waits in Vain for Sailor Lost in Rescue

today awarded the gold medals for gallantry for saving life at sea to all the efficers and men of the American liner President Roose-

American liner President Reosevelt, who went in lifeboats to the aid of the crew of the British steamer Antinee, including the two who were drowned.

Lloyd's Agency awarded its silver medal for life-saving at sa to Capt. Fried, Second Officer Robert Miller, Third Officer Thomas Sloane and Fourth Officer Frank Upton, and its bronze medal to the twenty men who manned the boats during the work of rescue.

The four officers also received awards of silver plate from the Board of Trade.

LEGION OF HONOR PROPOSED FOR OFFICERS

FIANCEE WAFTS IN
VAIN FOR HEROIC SAILOR
(BY CARLS AND ASSOCIATED PRICE)
BREMERHAVEN (Germany)
Feb. 3.—A sailor's sweetheart waited in vain for a man who will never return from the sea when the American liner President Roosewitt docked today. She was Hilda Draun, 15 years of are, who was to have been married to Ernest Heitman, the Roosewelt's boatswain's mate, who lost his life in the first attempt to rescue the Antinoe's crew,
She learned of her fance's death for the first time when the liner came in, four days late as a result of its mission of rescue. Heitman was knew here as Fries Steger, and a simple wedding at the girl's modest home was to have ended a three-years' courtship. During that period the sailor had paid for his sweethaart's education, as she is the daughter of an invalid father.

Hilda breke dewn when Heitman's compades told her of his tragic but heroic death. Capt. Fried and members of his crew consoled her as best they could.

She left the ship to inform her waiting parents that there will be no wedding.

#### Men Adrift for Thirteen Days in Motorboat

University Savants Find Evidence of Disaster to Horses 50,000 Years Ago

BERKELEY, Feb. 2.—Scientists of the University of California beleve themselves a step nearer solution of the cataclysmic mystery that wiped out the equine life on most of the North American con-tinent some time back in the Plicene Age, 50,000 or more years Rulers Revealed

Pilocene Age, 50,000 or more years ago.

Bone deposits unearthed in a gravel pit on a ranch at Irvington, near Oakisnd, recently, belonged to a prehistoric horse, it has been determined by Dr. Chester H. Stock of the Department of Palacntology. The bones suggested an equine, mastedonic in size, but bearing unmistakable resemblance to a horse.

Prof. George D. Lauderback, geologist, inspected the pit from which the hones were taken and said its formation is unlike anything that had been found on the Cost. He expressed the opinion that at the time the animal was imbedded there were no hills around Irvington and no Ban Francisco Bay and that the resien hereabouts was a vast plain. The gravel suggests an ancient river bed, he said, and the location of the bones suggests that the horses or horse mastedons may have been swept down from the hishlands and destroyed in some tromendous, prehisteric flood. of cerrespondence with the Communist Internationale in a raid on a Communist center here today. A semiofficial report says the police arrested three Greek Communists.

The raid uncevered a large center for the distribution of Communist propagands. The police selsed a printing press used for the publication of a secret Communist periodical. TEN SHADES TO WEAR

#### Gen. Chang Buys Eight Thousand Copies of Bible

NEW YORK, Feb. 8. — Eight NEW YORK. Feb. 3. — Eight the usuand Bibles, printed in Chinese, have been purchased by Gen. Chang Tse-Kiang of the Chinese national army for distribution among his officers. This word was received by the American Bible Society, which anneunced it as one of the largest purchases of Chinese Bibles ever made through its China seency.

Gen. Chang will autograph each of the Bibles.

# FEDERAL BOARD

Tariff Commission Scored in Resolutions

Congressional Inquiry Urged Into Methods

Abolition of Body Declared Aim of Producers

WASHINGTON, Feb. 3.—Abeli-tion of the Federal Tariff Commission and a Congressional inquiry into its record up to the present time was urged in resolutions passed today by the board of di-rectors of the National Board of Farm Organizations.
"Unwarranted delay" in dispos

"Unwarranted delay" in disposing of tariff questions affecting
farmers was charged in the resointions and it was declared also
that the commission had taken ascret testimony in at least one case
after the interested parties had
hean given to undarstand that
hearings were concluded.

While not mentioned specificality, the case involving "secret testimony" was that of the butter
tariff. It became known that
farmer leaders had ledged a formal protest, declaring that after the public hearings on butter
were closed last April 1, attaches
of the Danish Legation appeared
before the commissioners at a secret session and were questioned
about butter production in Denmark. Upon this protest the
commission has made no comment.

SPEAM FOR FARMERS

The National Board of Farm Organizations is made up of a number of sgricultural hedies, including the National Farmers' Union, the National Co-operative Milk Producers' Federation and the Pannsylvania State Grange. C. W. Holman, secretary of the heard, said that the delegates atterding the meeting "speak fer 706,000 farm families."

"Representatives of these organizations will immediately urgs acceptances of these resolutions upon Congress." he said, "and will give the criticism of the Tariff Commission, which has already been expressed their active support." SPEAK FOR PARMERS

been expressed their active support."

J. D. Miller, president of the
National Co-operative Milk Producers' Federation, declared the
resolutions were adopted "with
grim determination that the Tariff
Commission be utterly abolished,"
and W. F. Schillins, president of
the Twin Cities Milk Producers'
Association, said the dairy farmers of Minnesota were "afame with
indignation over the acts of the
Tariff Commission in the buttertariff ease."

CRITICISE METHOPS

CRITICISE METHODS

The resolutions declared the commission's "elusive and laby-rinthal method of dealing with questions of great public moment is bringing reprosed on all reputable sovernment asencies."

"Its unwarranted delay in arriving at decisions its prejudiced treatment of narties appearing before it, its method of holding secret hearings with certain parties interested in matters before the commission, when other parties understand that the hearings have been closed, have created a situation which approaches closely to a public scandal," the resolutions centinued. "A just cause cannot be harmed by publicity. A just commission, receiving proper information and arriving at proper judgments, has no need of servingments, has no need of servingments of the Tariff Commission declined to comment on the resolutions, but said the commission would welcome investigation.

Wedding Chimes Follow

Bert Colima, star middleweight, and idol of the Mexican colony, will stop long enough in his fistic pursuits to hear wedding bells shortly after he boxes Ted Moore at Vernon next Tuesday night.

MOLAR JARRED OUT
In the fifth round he knocked one of Taylor's teeth loose and in the seventh he bounced a bridge out of the Terre Haute sharp shooter's mouth.

In this same round Taylor apparently injured his right hand and from then on he relied solely on his left flipper. He made the announcement of his engagement yesterday. The girl is Senorita Eleanor Olea,

daughter of one of California's oldest Spanish families. dest Spanish families.

The wedding date has not yet been set by the young couple, but it will be on St. Valentine's Day probably, Colima may take his bride to Mexico City on their honeymoon where he is

FANS GO WILD **OVER MILLING** 

Terre Haute Boy Has Shade in Every Round

Scrappers Put on Several After-Gong Bouts

Finley Victor Over Lane in Olympic Semifinal

BY PAUL LOWRY Outpointing Joey Sangor in a phirlwind bout that had the bugs screaming violently round after round, Bud Taylor captured a hard-won battle from his Minnea-polis rival at the Olympic Audi-torium last night. One of the besi fights seen here in recent months it was witnessed by practically a capacity crowd.

Pilling up a huge lead in the early rounds with lightning-like lefts to the head and stomach, mixed in with an occasional right cross to the chin, Taylor eased off the pace in the middle sessions and fought thereafter in spurts. These came whenever Sangor appeared to be gaining the upper hand, and by the dynamic fury of these charges the blond battler from Terre Haute invariably changed the complexion of the round.

Dripping blood from the fir

Dripping blood from the first chapter to the last, Sangor fought grimly to overcome Bud's early lead, fought so well that when Referee Harry Lee raised Taylor's hand a big batch of the spectators let out a yelp. However, the decision was as perfect as the recent rain, and absolutely no flaw should

SAFE MARGIN

In the second round, for example, Taylor started forty-three left-hand blows to the stomach and head, thirty-eight of which found their mark—good solid smacks that hurt—and ten rights. The pace he set in that round was entirely too fast for Sangor to follow, and the same thing was true in the fourth.

However, in the later stages of the battle Sangor got his left hand working effectually, along with his right, and scored at close quarters

**ALTAR SOON** 

MOLAR JARRED OUT

It was a sensational battle of left hands, and Taylor won because he was able to set a faster pace and always had something in reserve when Sangor loosed his most dangerous assaults. Taylor had a big majority of the rounds—seven to three, to be exact.

One of the things that made it a brilliant scrap was the lack of clinching. The only time Lee came between the boys was at the end of two separate rounds,

# Aside from the fact that it has been in existence three years and was put up by Mike Collins there is not much history to the junior welterweight belt. It has been in the keeping of Pinkey Mitchell ever since he won it as a result of a popular voting contest conducted by Collins in his fight publication, "The Boxing Blade." However, it is a very valuable girdle—worth \$3000—and prised very highly. It is insured for \$2000 by the present keeper, and the titleholder is recognized officially all over the country. A committee of three Mill-wankeens—A. J. Hedding, chairman; John C. Karel and M. L. Annenberg—are responsible for the fulfilling of the conditions under which the belt was awarded. It is a permanent trophy, one of the stipulations being that it must be defended every six months provided suitable opponents appear. One of the colerful requirements of a title match is that the referee must wear the belt during the progress of the conflict and present it to the winner at the conclinsion of the fray.

WOULD EXTEND LANDIS'S TERM

IANDIS'S TERM

[SY A P. NIOST WIRE]

NEW YORK, Feb. 3—After failing to ratify their 1926 schedule,
National League owners today
passed a resolution favoring reappointment of Baseball Commissioner Landis for ten years when
his seven-year term expires in
1927.

Action on extension of Landis's term came less than twenty-four hours after the commissioner himself had urged retention by the major leagues of their present system of government, with one man at the helm; having no connection with any of the clubs. Definite steps for reappointment of the former Federal judge at the next joint session of the major leagues was urged.

Failure of the owners to ratify the schedule had been forecast by general dissatisfaction over the ab-breviation of the playing season a full week. The schedule was re-ferred to President Heydler for re-

# BRESNAHAN SIGNED

NEW YORK, Feb. 3.—Roger Bresnahan, catcher of the New York Giants from 1902 to 1908, and Christy Matthewson's battery mate, today was appointed a coach of the Giants, Manager John J. McGraw announced. He left New York in 1908 to manage the St. Louis Cardinals.

#### **POLAR PLANES** ON WAY WEST

Two Fokkers Loaded Onto Special Cars

Trip to Alaska Perilous One for Machines

Trains Racing to Connect

Northern Pacific to Seattle?

Great care will be necessary in andling the giant wings through he close quarters of many freight ands. Arriving at Seattle. they just be unloaded from their fallar, derricked aboard the steamer nd carefully packed where nothing can mar their delicate framework. At Seward, Alaska, they just be derricked out of the isamer, reloaded on a special train and finally unloaded at Fairbanks. Central Alaska, A immed puly or a breken cable, a careless angahoreman at any place along the line, may cause irreparable image to the delicate wings or selage structures and end the stroft Arctic Expedition almost its beginning.

tits beginning.

LAFFIRTS ON TRIP

The wings are balanced on the ingest fatear which can be handled by American railroads. They are so long that they project a ong way from both ends. and hese prejections are sheltered by tondels care whose couplings have seen chained fast to brevent an accidental uncoupling anywhere along the line. E. L. McSweeney of E. S. Evans & Co., the Detroit automobile loading firm, superintended the preparation of the cars for their transcontinental journey.

planes are moving westward. Wisely and Huffard are members of the Wilkins szpeditien, and will stay with the planes all the way to Point Barrow. Wiseley will have charge of the Liberty engines and Huffard of the air-cooled Wright engines, when the planes are finally assembled at Fairhanks, Alaska, for their trie into the unexplored Worth.

Capt. Wilkins and the other members of the expedition senators Smith and Ransdell, Democrats, voted against it, as did Senators Norbeck, Republican, South Dakota; Gooding, farewell to their friends and supporters in New York last week. They will be in Detroit until today, when they start for Seattle.

#### INQUEST ON **WEAVERSET** FOR TODAY

Real Estate Man Who

Real Estate Man Who
Found Body of Mystery
Victim to be Chief Witness

EXCLUSIVE DIMPARCH!

SAN BERNARDINO. Feb. 5.—
Unsuccessful in clearing the mystery of the death of Carl A Weaver, Los Angeles youth, Shariff Shay today awaited the inquest tomorrow. At the inquest George Greer, a Big Bear Valley real estate operator, who found Weaver dying in his wrecked autemobile in a canyon below the Fawnskin Road, will be the principal witness.

His statement clashes sharply with that of Carolyn Reed, London what Fark avenue and Fifth avenue are to New York. In the old days, there were many many fifth weaver fifteen minutes before the crash. Carolyn and Ott declare they were in the wreek and that Weaver was undust. They left him at the car, returning to the dance for aid.

Carelyn and Ott had hardly reached the dance when Greet dragged Weaver out of the Gar. It was first believed that Weaver was hurt in the cresh but embalmers found a bullet-hole in his skull.

Carelyn, the guest of Weaver at the dance because she "showed George Ott a few steps," she admits. Ott's brother Wilbur, Carolyn, sister Neille, and C. A. Gallagher of Les Angeles are all held as suspects in the case.

"Ma" Ferguson and Board Rule as to Word's Use

Passages From School Biology Text Deleted

Terms May be Banned From All State School Books

(EXCLUSIVE DISPARCE)
AUSTIN (Tex.) Feb. 3.—It is now up to Gov. "Ma" Ferguson and the other members of the State Text Book Board to say State Text Book Board to say whether the word "evolution" shall be left in any text book taught in the public schools of Texas. The subcommittee of the Text Book Board which was appointed to delete certain passages relating to evolution in Moon's "Biology for Beginners" have gone much farther than their original instructions and the word "evolution" has been expurgated from the whole catagory of text books adopted for use in this State. The subcommittee is due to make its report to the Text Book Board March 2, next. F. W. Chudez, one of the members of this committee, is business manager of "Perguson's Forum." weekly political newspaper of former Gov. James E. Ferguson. Another member is T. Yoe, superintendent of schools at Brownsville, and the third member is R. L. Paschal.

An interesting story is related of

and the third member is R. L. Paschal.

An interesting story is related of the deliberations of the subcommittee. One member is reported to have urged that the word "evolution" and its definition be blotted out of every dictionary in use in the public schools of the State. It was decided, however, that dictionaries did not come under the head of adopted books and that the committee's powers did not extend that far.

Even evolution as applied to plant life can no longer be taught in these schools, if the report of

MISSING CHAIR OF

COOLIDGE FOUND

(BY A. P. NIGHT WIRE)

MARBLEHEAD (Mass.) Feb. 2, The missing Coolidge chair, the first promoted was the offer made by missing to missing the fact that medical help and analitary service mane at a most opended water can whell was felt that medical help an analitary service ma combatted by a wide spread distribution of thousands of capsules of quinine and huge amounts of calomel, saits, etc. Lime, sulphur and creoline have been freely used also by Dr. Harris, who began work with a creoline bucket gang of twenty-four and another group of ten that carried sprayers and have consistently covered the stricken city since.

The laiest survey shows that 1463 homes were brought down in ruins or carried away by flood waters in the city of Santiago alone. This was due to their construction of sun dried and burnt adobe bricks and the unprecedented height of flood waters in this old city, first settled in 1575. On subsiding of the water block after block was left covered with a shapeless mass of refuse, dead animals and people, and as much as two feet of slimy silt. American Red Cross shovel gangs opened up the ancient streets to traffic, dug ditches down to the Santiago River on, which the city borders, began draining stagnant pools throughout the stricken area and later began moving enormous amounts of dirt to tho, river. Other gangs were kept at work burning dead animals and hauling them to the river.

dead animals and hauling them to the river.

Meanwhile, distribution of food and clothing remained almost entrely in charge of the local relief committee formed immediately after the flood. American Red Cross foodstuffs were sent down from Mazatian and issued through this medium to fine advantage. A group of local women helped by constant house-to-house visits and kept the local committee in close touch with the most needy. Hunger was reduced to a minimum but lack of medical attention and especially shortage of medical supplies prior to the coming of the death toll.

Relief work at Tuxpan and Mexcalitian on the San Pedro River has been very ably handled by the local committees formed at the time of the disaster, with funds the results of the disaster, with funds the results of the results o

plies prior to the coming of the American Red Cross added to the death toll.

Relief work at Tuxpan and Mexcalitian on the San Pedro River subscription at Mazatlan by an active committee headed by the well-known engineer and philanthropist, Manuel Bonilla, distribution on the spot being in the hands of another well-known engineer. J. Gonzalez Ortega.

The Southern Pacific Railway of Mexico suffered huge losses with more than twenty miles of track washed out at various points and the major part of the two huge bridges over the San Pedro and Santiago Rivers brought down by Santiago Rivers brought down by the flood. Through rail connection to Tepic will be impossible until the 10th inst., or later,

PERPLEXES IN DECISION American Red Cross aid came at a most opportune time, has been intelligently administered and has left behind an excellent impression.

Ruling Under Narcotic Attack It

(BY A P. NIGHT WIRE)
WASHINOTON, Feb. 2. — Un- P.

usual interest is shown by legal authorities in a recent decision of the Supreme Court in a case involving the Federal Antinarcotic Act.

Justice McReynolds delivered the opinion in a case from Minnesota James Daugherty, sentenced under three counts of an indictment for violating the narcotic law, should serve his terms consecutively or concurrently. Daugherty lost his fight for a right to serve the sentence concurrently but in delivered. to be Studied

Canadian Line

OTTAWA (Ont.) Feb. 3.—The

ough investigations into smuggling

operations along the United States-

mittee of Canadian Parliament was assured today when George H. Boivin, Minister of Customs and Excise, announced in Parliament his willingness to institute such in-

quiries.
His statement to Parliament fol-

lowed sensational charges launched by H. H. Stevens, Conservative, former Minister of Trade and Com-

Fast Mail Train

Canada border by a special com

concurrently. Daugherty lost his fight for a right to serve the sentences concurrently, but in delivering the ruling the justice served notice that the court might find it necessary to reverse a former decision on the constitutionality of the law itself if the issue was properly presented to it.

Justice McReynolds pointed out that since the constitutionality of the Antinarcotic Act was sustained in the original test by a sharply divided court, that tribunal has passed upon a number of other laws in which, as in the Narcotic Act, the Federal government attempted to enforce regulatory legislation through the exercise of its taxing powers. taxing powers.

These cases included the child-

These cases included the childlabor law, and the law involving
the taxing of certain grain exchange transactions. In view of
the decisions which were adverse
to Federal regulatory legislation
based on the taxing power, he
declared that should a case be
properly presented attacking the
constitutionality of the antinarcotic
law it might be necessary for the
court to review its former decision sustaining that law.

Lawyers interested construed the
justice's remarks as an invitation
for some one to attack the constitutionality of the law.

#### Killing Engineer GIRL ENDS LIFE AFTER QUARREL WITH SISTER

(EXCLUSIVE DISPATCH) SAN FRANCISCO, Feb. 3.—
Mona Herrick, 15-year-old school
girl, shot and killed herself this
afternoon in her home after a
quarrel with her sister, Willetta,
17, over the distribution of household funds. Her body, with a bullet hole through the left forehead,
was found lying on the bedroom
floor by her aged grandmother and
her sister. Near by lay a small
automatic pistol, the property of
the girl's father, William E. Herrick, an electrician.

EOPE-O-

SANTA MONICA

Millions of Americans Will Want to Live Here

Climatically, topographically and geographically combined Santa Monica has no equal.

The situation and conditions are so ideal it is logical that the people who come to make their homes here should be those who will appreciate and enjoy the great privilege.

This natural selection will give Santa Monica a rare class of citizens.

And so Santa Monica will be a most interesting place in every way.

If a man has a super idea for the benefit and progress of mankind he will come to Santa Monica to develop it. This has already happened in several cases.

Primarily Santa Monica is an ideal place to live. Next it is an ideal place to play, rest or sojourn for a season.

Great hotels are preparing to rise on Ocean Avenue to help entertain our guests. The hotels already here have incomparable sites the above view and the marine sunsets. Many magnificent beach clubs are being erected.

Great development is going on in golf, athletic and country clubs. A development in yacht clubs will follow.

The State University and one men's college have large areas and sites in the district for buildings, athletic fields, and for college communities.

Beach amusement development is the greatest and of the highest type in California.

The Coast Highway following the contour of the beach in the above picture is being completed through to Santa Barbara and San Francisco.

Santa Monica is cool in summer — a resort for inland and eastern people. It is warm in winter — a resort for eastern, northern and Canadian people.

This picture is only seventeen miles from Seventh and Broadway—and much less from

Wilshire, Beverly Hills and Hollywood.

In the front yard of one of the world's great and most interesting cities, with such climatic conditions and natural beauty, you can visualize for yourself what the future of Santa Monica will be.

When you are in Santa Monica think of the many great plans now being carried out in this area—and that the heart and core of it all is, and will continue to be, that part included in Santa Monica municipality.

All that you see here is in Greater Santa Monica -- Santa Monica Bay, Santa Monica Mountairis, Santa Monica Palisades, Santa Monica Canyon.

If you are in California for a short time be sure and see Santa Monica. It is thither all eyes are turned.

It is here that you will want to come to spend your summers or your winters and one day—if not now—to make your home.

COFFEE MARKET

When Prices Are Low

This is particularly true of securities. Going back seven or eight

years, it is easy to remember that many 6% public utility bonds, now selling at premiums, were offered from 85 to 88, and 5%

bonds of companies now greatly favored, sold around 70, as against 95 and 100 te-day.

When the 6% bonds were in the 80's and the 5's were in the 70's, they had to be "sold" to investors who were then skeptical, yet it was during this time that there existed real rewards for

the investor who followed the recommendations of a careful and analytical bond house with vision and an open mind.

A similar situation unquestionably exists today in connection with many sound, carefully selected foreign bonds. So it is that sound foreign bonds will be in greater demand and actively sought by investors when they offer yields of 5½% and 6%

It is the hidden but substantial factors which are today con-tributing to a foundation of future stability, invisible to the

average investor, which will result in 51/2 % and 6% yields not

in place of 7% and 71/2%.

so many years hence.

HEN prices are low, intrinsic value is generally underestimated and, according to the ways of the world, when they are high, real value is commonly overestimated.

The annual meeting of the trust-Bankers' Association, held in contion of the association, will be held at the Hotel Del Monte on at the Hotel Del Monte on Wednesday, May 28, according to an announcement issued by Joseph E, Huntoon, president of the People's Bank of Sacramento and president of the State association.

The attendance at this meeting is not limited to trust bankers, although the program is essentially limited in its scope to consideration of trust problems. Experience has proven that the plan of holding a separate session in this way is worth while, Mr. Huntoon stated.

The Hotel Del Monte was recently selected as the meeting place for the State convention this year from May 26 to 29, inclusive.

ARROWHEAD SPRINGS CORPORATION FIRST MORT-GAGE 61/2 % BONDS are secured, in the opinion of counsel, by a direct first mortgage on the Corporation's bottling plant in Los Angeles—the largest on the Pacific Coast—fix-tures and equipment, and the entire Arrowhead Springs property including Arrowhead Springs Hotel owned and operated by the Corporation at Arrowhead Springs, California. These properties were appraised, as of June 15, 1925, at a sound value of \$1,209,600. Since that date \$120,250 has been expended on the property, making a total valua-tion of \$1,329,850, or more than 2.8 times the amount of bonds now outstanding.

Arrowhead Springs Corporation is engaged in the distribution of Arrowhead Spring Water and in the manufacture and sale of Arrowhead Ginger Ale and other well known beverages. Net earnings for the three calendar years ended 1924 averaged annually, after depreciation, \$88,378—approximately 3 times maximum annual interest charges on the now outstanding bonds.

Detailed descriptive circular gladly furnished upon request.

Southern Ice and Utilities Company

First Mortgage Gold Bonds Convertible 6% Series

Convertible at the option of the holder at any time prior to redemption or maturity into Class A Common Stock

The Equitable Trust Company of New York, Corporate Trustee.

For detailed information in regard to these bonds attention is directed to a letter from Mr. C. W. Dawley, President of the Company, which is available on request and which he has summarized substantially as follows:

The Southern Ice and Utilities Company was incorporated in Texas in 1916 as the outgrowth of a business originally established by myself in 1886. Including wholesale as well as retail distribution, we serve with ice over 300 communities having an urban population of 960,000, in Texas, Oklahoma, Arkansas and Louisiana. We will own and operate 37 modern artificial ice plants, 5 ice cream plants and a creamery. The commercial cold storage plants have over 1,500,000 cu. ft. of refrigerator warehouse space.

SECURITY

These bonds will be secured, in the opinion of counsel, by a direct first mortgage on all the fixed assets of the Company now directly owned and those to be acquired by this financing, and will constitute its only funded debt. The Company also covenants that all fixed assets hereafter acquired by it will, as provided in the mortgage, be subjected to the lien thereof. Additional bonds, secured thereunder, may be issued in one or more series under the restrictions of the mort-gage, except that an additional \$500,000 prin-cipal amount of bonds of this series will be presently authorized and may be issued with-out further security. The appraised depreclated value of the properties is equivalent to approximately \$2670 per \$1000 bond to be presently outstanding. The balance sheet as of October 31, 1925, and after giving effect to this financing shows net assets of over \$3300 for each \$1000 bond.

EARNINGS

For the year ended October 31, 1925, net operating revenue (before Federal taxes) of proper-ties then owned and those to be acquired by this financing, as certified by independent auditors, was \$1,242,955, or approximately 6 times an-

nual interest requirements of this issue For the past 4 years net operating revenue of properties now owned (exclusive of those to be acquired by this financing) averaged \$642,565 or 3 times these requirements.

CONVERSION PRIVILEGE

CONVERSION PRIVILEGE

Bonds of this series will be convertible at the option of the holder, at any time prior to the date of redemption or the maturity thereof, with cash adjustment for accrued interest, into Class A Common Stock of the Company on the basis of 28 shares for each \$1000 bond until \$500,000 principal amount of bonds have been converted, then 24 shares for each \$1000 bond until \$600,000 principal amount of bonds have been converted, the number of shares thereafter being successively reduced 2 shares in respect of each succeeding reduced 2 shares in respect of each succeeding block of \$600,000 principal amount of bonds converted, except that the last block shall consist of \$500,000 principal amount of bonds.

SINKING FUND

Commencing February 1, 1927, and semi-annually thereafter, the Company will pay to the corporate trustee as and for a sinking fund for the purchase or redemption of the outstanding bonds of this series an amount equivalent to 1% of the largest principal amount of bonds of this series theretofore issued. Bonds retired through the sinking fund will be cancelled. This sinking fund, it is estimated, will retire approximately 40% of the \$3,500,000 bonds of this series by

PURPOSE OF ISSUE

The proceeds of the sale of these bonds will be used to retire funded debt, to provide funds for the acquisition of additional properties and for other corporate purposes.

Legal details subject to approval of Messrs. Beekman, Bogue, Clark & Griscom of New York and Messrs. Thompson, Knight, Baker & Harris of Dallas, Texas, for the bankers, and Messrs. Phillips, Townsend & Phillips of Dallas, Texas, for the Company. Offered on a when, as and if issued and accepted basis, subject to approval of counsel.

INVESTMENT SECURITIES

Associated Gas' and Electric System

Founded in 1852

Business Diversity

A public utility system serving a large number of moderate sized business enterprises is more likely to have a steady demand for its service than one serving a small number of large ones.

The more numerous and diverse the activities in a community are, the more likely they are to balance

The Associated System serves an unusually wide variety of moderate sized business enterprises. By actual count it serves approximately 1,200 enterprises employing 25 or more persons each. While not counted, the number employing less than 25 is by far the larger group.

Of the 1,200 enterprises, over 800, or approximately 70%, are also of moderate size, employing 25 to 100 persons. Less than 29% employ 100 to 1,000 persons and only 11/4% employ over 1,000

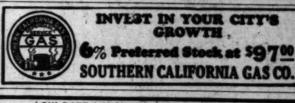

The location of Associated properties in 11 states necessarily means diversity in business activities; the fact that the business enterprises served are numerous and of moderate size literally brings about diversity within diversity.'

Variety of business activities tends to produce desirable conditions for the worker and uniform business prosperity for the community. This in turn steadies the demand for utility service and stabilizes the earnings therefrom.

We invite inquiry regarding opportunities for expanding your business by locating in territories served by properties of the Associated Gas and Electric Company

# "IT IS TO LAUGH"

In all of yesterday's papers I read with a lot of interest, and a lot of amusement, too, an article emanating from the State Corporation Commissioner's office, relating to an application for a permit I have

The article I refer to went on to say that my application for a permit to offer for sale, stock in C. C. Julian & Company, had been

The color lent to the article was misleading, and untruthful, inasmuch as it tended to leave the impression in the reader's mind that I had filed an application for a permit to steal a few million dollars, in substantiation of which statement, I will now quote from my applica-

WHEREFORE, applicant prays for a permit authorizing it to sell and issue shares of its capital stock, as follows, to-wit: (a) 500 .-000 shares of its Preferred capital stock and 500,000 shares of its common captial stock, in units of 2 shares of preferred and 2 shares of common, at \$25.00 per unit cash, or for 40% of the selling price thereof in cash and the balance to be payable within twelve months from the dates of sale, subject to a selling cost of not to exceed 20% of the selling price of each unit. (b) To issue to C. C. Julian 2 shares of its common capital stock, as and when each unit of its capital stock is sold and issued (each unit comprising 2 shares of its preferred and 2 shares of its common capital stock), in full payment for services in organizing and promoting this corporation.

For the information of the people of this community, permit me to say that I was not the least perturbed over this action by the Honorable Commissioner, and when filing my application, I expected to receive no fair consideration from his department.

I have today, entered an appeal to the Superior Court of this State, against the Commissioner's decision, and I am quite curious as to what his defense will be when I submit to the Court hearing the case, at least, a dozen copies of permits he has issued during the past twelve months identical of the one I requested.

The substance of my application was the same procedure followed by every Corporation in requesting 51% of the common stock or control of the voting stock, and in my application, I requested permission to sell 500,000 shares of Preferred with which I give away 500,000 shares of Common, and retain 500,000 of Common for myself.

The article to the press emanating from the Commissioner's office, went on to say that out of \$7,500,000 of stock to be issued, I wished to take \$2,500,000, which was far from reflecting the facts in the case.

Fortunately for me in this case, I filed the application in question just six months before I intended to use it anyway, and while awaiting the decision of the Superior Court, I will be kept plenty busy whipping into operation my present, "BABY," "WESTERN LEAD," which in no way comes under the jurisdiction of the Corporation Commissioner, and thank goodness for that.

THE INVESTOR United Gas Improvement Company, Among Oldest of Public Utility Holding Corporations, in Exceptionally Strong Position—Holdings Enhance Greatly in Recent Years

[EXCLUSIVE DISPATCS]

[Countries, 1928, by New Test Seeilar-Pest, Inc.]

[Improvement Company—have been acquired over a long period of years, and the value of practically all of them has enhanced materially in the course of the better are preclation by the public of utility since seel not been much in the public eye recently, due to their activity marketwise, is one of our oldest and best known public.

Organized five years after the closing of the Civil War, it has since secured control of a large group of far-flung operating properties. Primarily interested in gas companies at the beginning, the company has kept abreast of the times, and the system which it controls today includes virtually as many electric companies as gas companies.

The holdings of the United Gas

Improvement Company—have been in the interval, give it a value equivalent to about \$2328 a share.

The company also owns a large dequivalent to about \$328 a share.

The company also owns a large dequivalent to about \$328 a share.

The company high in the interval, give it a value equivalent to about \$328 a share.

The company high it has been a long period of years, and the value of practically all of them has enhanced materially in the course of the better approach to about \$328 a share.

The company high in the interval, give it a value equivalent to about \$328 a share.

The company high it has been a large of Georgia Railway and Power common, which it has been revert to the company in the lock of Georgia Railway and power common, which it has been a stoday it commands a price in the opten materially all of them has enhanced materially in the course of the better approach the form more favorable basis.

Reserves est up in connection with the gas lease, which that sheen the interval, give it a value equivalent to about \$328 a share.

The company has kept about \$40.000 shares of the close of t

public utility field around Philadel-phia. Gas properties in the city proper are operated under a lease agreement terminating. In 1927, and proposals are already being made to extend lease through the for-mation of a new company on a more favorable basis.

OTICE OF SALE OF

# "Here's a Hot One"

Just received a letter from a Gent up State, asking me if there was any use for "LEAD" other than its use for pencils. Can you tie that?

Just in case there are others that are not familiar with the demand for "LEAD" today, let me say this:

There is no substitute for "LEAD" and at the present time there is a great scarcity of this metal, with the price today 25% higher than the price the Government stabilized this metal a during the World War, when all metals were in great demand at high prices.

It is not generally known that the smelting industry must have a generous percentage of lead ores to mix with the gold-silver ores, as it is the melting of the lead in the charge trickling down through the molten mass that serves as a collector for the other values and makes commercial smelting possible.

The vast amount of "LEAD" used daily in paint alone w knock you for a row of red brick houses.

Bear in mind that the amount of "LEAD" used in under ground conduits for telephone and other wiring is immense.

Millions of tons of "LEAD" a year are used in the manufac-ture of window glass, and every battery in every car and every radio set, carries plenty of lead, and the sweet part of it all in from a producer's standpoint, that lead once used cannot be utilized again.

There have been no new discoveries of "LEAD" in any volume in this country for a great number of years, and every indication is that "LEAD" will go to the present price of copper. which is fifteen cents a pound today.

Anyway there is lots of demand for this precious metal, and it looks like "WESTERN LEAD" had a solid mountain of it up on the very edge of Death Valley, and one hour's drive from the

My honest advice to everyone open for an investment, is buy "WESTERN LEAD" today and buy all you can handle.

The stock is listed on the Los Angeles Stock Exchange, and is due for a fast ride skyward,

It closed yesterday at \$1.73 a share from an opening price of \$1.50 Saturday.

You may either place your buy order for this security through your own Broker, or better still, wire, phone, write or run in and see me and get all the dope, and I will execute you buy order at the market quotation free of charge for our services

The longer you wait, the surer that you will buy it, the sound you buy it, the greater the profit you will realize.

All orders received by me will be executed over the Lo Angeles Stock Exchange immediately at the prevailing marks

street made as effect to shaber of the continue of the continu

tofore as in the nature of a liquidating proposition, due to the admitted limited life of its producing properties, the stock had been more or less neglected until the resumption of dividends on the common early last month. A payment of \$10 was ordered at that time, and it was stated that the pelley of the company in the future would be to pay out approximately one-half of annual earnings, after all charges except depreciation, in dividends on the junior issue. Litigation brought by preferred stockholders, however, resulted in a temporary order resistanting payment of the dividend. t beck to 3520 feet, at which it was completed with a pro-Company, which is straining payment of the dividend. Disposition rests entirely upon the purpose of the company's charter provisions relative to the rights of preferred and common holders.

to the rights of preferred and common holders.

Nickel Plate Report

The Interstate Commerce Commission having failed to live up to the general expectation that its decision in the Nickey Plate consolidation would be delivered by the 1st inst, there is a report current in financial and railroad quarters that the findings will be made known shortly after March I. The report has it that the writing of the decision has been assigned to a member of the commission who represents a majority opinion in fever of the merger. There is considerable divergence of opinion in local quarters on whether the approval will be accompanied by reservations or modifications of terms, but there seems to be good basis for the expectation that the minority opposition in the commission will not be sufficiently strong to block the authorization.

NEW RAINSTORM HEADS IN ROWLAND Additional Precipitation Forecast as Near Certainty,

With a huge area of low pressure mantling the Pacific Ocean for more than 1000 miles, additional rain for Los Angeles is almost a cer-tainty. Col. Hersey, head of the United States Weather Bureau, an-

Bureau Predicts Wet Winter

"Reports from ships at sea re-RAINFALL TABLE eived during the day indicate a new storm is forming off the Cali-fornia coast," Col. Hersey said inches, reported for Southern Cali-"But even if this storm does not fornia up to 6 p.m. yesterday: new storm is forming off the Calimaterialize, the enormous field of

low pressure over the ocean gives hope that plentiful rains are in prospect for California."

The forecast for today is:

Alhambra ....
Anaheim ....
Arcadia ....
Bakersfield ...

The forecast for today is:

"Unsettled with probably showers; moderate temperature; fresh southerly winds."

Official figures for the rain which ended early yesterday were given by Col. Hersey as .83 of an inch for the storm and 7.81 inches for the season to date. These totals were obtained from the Weather Bureau headquarters at Sixth and Main streets and are slightly less than the amount of rain registered Tuesday night at Col. Hersey's residence in the foothills.

"The difference in rainfall be-

Following a meeting of sponsors and a committee representing the various newspapers of the city at the Biltmore yesterday, a plan will be presented to city officials today for what bids fair to be not only the most pretentious Fourth of July celebration ever attempted in Los Angeles, but also one of historical evolution. The presenta-

The celebration which is to take others with the benefits of American history, created by The motion-picture industry and enterior of the motion picture industry.

American history, created by the motion-picture industry and enacted by the leading stars of the screen with the assistance of various local organizations, it is proposed, will be held at the Collisseum with foreign-born people receiving their final United States citizenship appers as the guests of honor, their citizenship diplomas presented by some man of national repute, and the capacity of the signatic oval permitted to witness the colorful tableau arranged to impress upon the minds the spirit of Americanism.

IDEA SUGGESTED

The celebration with its pageant of the suggestion by Frank Lloyd, motion-picture in the colorance of the signatic oval permitted to the perfection of the pageant or has sought ever since to create some historical drama to impress

#### Expect Throng on Saturday at Tourists' Picnic

Sixty-five thousand persons are xpected to attend the twelfth annual tourists' reunion and free sports program which will be conducted all Saturday at Exposition Park and the adjoining the annual Canadian midwinter

Addresses will be made by repesentatives of the nine Canadian Provinces, according to John Hooper, president of the affiliated Caper, president of the affiliated Canadian and American tourists' so-cieties, under whose auspices the event will be held.

The feature of the sport pro-gram will be a lacrosse game be-tween girls' teams of Pasadena and Los Angeles. There will be an archery exhibition.

FORMER TEACHER DIES Lottie M. Barry died suddenly esday at the home of her parents at \$16 Wall street. She was a for er school teacher of Los Angeles and other Southern California cit-ies. She was born March 29, 1881 ies. She was born March 29, 1881 at Woodbine, Iowa, and was a graduate of the Ventura High School and of the Los Angeles State Normal School. Besides many friends she leaves her parents Mr. and Mrs. R. S. Barry, a sister, Miss Mabel Barry, and a brother, Carl C. Barry, vice-principal of Huntington Park Union High School. LUKEWARM WELCOME

Comments of the European press on America's desire for "limited membership" in the World Court are hedged about with as many reservations as the Senate's ratinous by its absence in the chancellories of what are known as the leading powers; but some of the smaller nations that feel the need of "a friend what carries a rasor" are glad that this country will be represented in the World Court.

Perhaps it is for the best of all concerned that America should be welcomed as a friend of the weak rather than as an associate of the strong. Before the World War it had become traditional in European diplomacy that the weaker was always in the wrong. Military equipment was "the last argument of kings." The fivver possesses equal rights with a truck on the streets or highways only when a traffic officer is in sight; and the lesser powers regard the League of Nations and the World Court in the light of traffic

cerned, they need a traffic officer only when their way is blocked by another truck. When there are only flivvers to oppose on the international highways, and no traffic officers, the truck always has the right of way.

It is apparent that no objection to ou membership with reservations will come from the lesser powers. They are willing to accept us on our own terms. Austen Chamberlin, British Minister of Foreign Affairs, has informed the press that Great Britain will welcome America's membership, although the welcome would be more cordial if we had been willing to accept the conditions by which the other world powers are bound and limited.

The French press is inclined to be sar-sastic. The French editors are surprised that Uncle Sam should be so timid, "that we should insist on bringing our shooting irons with us and leaving our pecketbook Such remarks give rise to the suspicion that the French are more con-cerned about our gold than our advice. It is possible that opposition will develop in the French Chamber to the Swanson res-

The Italian press has little of conse-quence to say. In fact, it is permitted to say little of political consequence under the Mussolini censorship. One of the Fascisti journals, a government organ, says, however, that Italy—which means Mussoini-will raise no objection to America's membership. Mussolini is no novice in foreign affairs. He handled the Italian debt settlement so well that, as soon as the agreement was signed, Italy borrowed enough money from Wall street in a sin-gle loan to pay the Italian installments on the American debt for twenty years.

Our friends are the little nations: Belgium. Poland, Csecho-Slovakia, Jugo-Slavia and the other members of the Little Enfour-legged pup. Our sports go over to tion seems still stronger than the sense of impartial justice. America is free from this tradition, and it is to our member on this tradition, and it is to our member on this tradition. weaker nations will appeal. They will expect him to act both as judge and advocate, a position that will be difficult to fill.

The fact that each judge will represent abstract and concrete justice, that his nationality will-or should-have no influence those lesser powers. They have yet to learn that justice can be wholly disassociated from interest.

Unless objections develop later the ac ceptance of the Swanson reservations by the other members of the World Court will not be long delayed. The pressure of the smaller nations will act as a apur to hasten action of England, France and Italy. The World Court will gain in respect and its scope of activities will be broadeped by American participation. We shall have contributed our part to the spirit of peace; spread and the story of a man walking and it is very possible that the Swanson into town would have made folks yawn. ened to a revolver that one may keep in his home a lifetime without using, but that one regards as a necessary protection

FORD AS A MANAGER
Although the recent contribution on
"Management" by Henry Ford to System "Management" by Henry Ford to System than, which safely weathered the tempest, must have come as a jarring note to the declared it was the worst Atlantic storm editors of that wish exponent of business efficiency, they were game enough to print of navigation. In his frank, simply written article

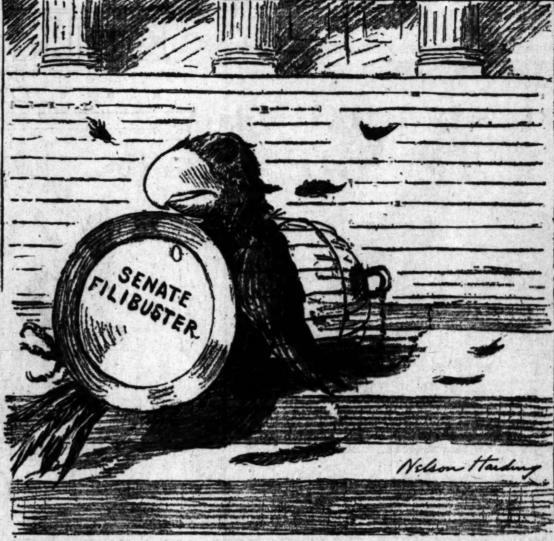

Mr. Ford knocks some of the props from under those business men of conservative lam of roaring wind and snow and sem and methodical ideas and shows profound contempt for some of the practices of effciency experts, among them what he considers time-wasting conferences and too diligent attention to methods.

"The business of management," writes Mr. Ford, "is to manage. The thing to be managed is the work." With this idea as the ruling thought he and his assistants implify their work by seizing the essential features of it and concentrating upon them. They have no bulky and unwieldy departments, no private offices, no red tape and very little "method" and yet they handle an enormous amount of business.

It would seem by the Ford article that of his expected victims. at times method threatens the smooth running of things in the big Detroit plant, but in this, her last ocean attack on the skill when it does, Mr. Ford says, "we begin to and strength of man, though she may look around a little." This is as if there was a fear that method was going to interfere with the emclency of the concern Yet after a plant has been old business men, intrenched in such private offices as Mr. Ford relegates to the everybody in the community is familiar dead past, open their eyes in amazement, with the facts the owner faints with and one can hear these worthy men say, amazed indignation when the Sheriff hangs "Well, Uncle Henry does do a lot of queer lock on the door. Depriving him of things, but, then, he knows how to roll up

THE REAL PROOF Some big business concerns lay great through Denmark last century and bought dream books at the City Hall are express stress upon conferences. Sometimes the department heads are called together three ing the opinion that Dr. Frederick Cook or four times a day to discuss and settle did that thing he once said he did. It was possess people of their property and would weighty problems. A visitor, even a big explained that for years the explorer customer, who wants to see one of these suffered from a foreign substance in his net is not being committed there every fice. "Very sorry you can't see Mr. Smith. It is not as dumb as he would let his governed at the conference." And the visitor has a tedious wait or else he goes away, probable at the made a quick turn at the ably wondering what those who are so form. clative of his country's courof conferences will think when they read players are about to extend another vote
the words coming from Henry Ford, one of confidence.

CONCERNING SHARKS

By James J. Montague.

think perhaps I've wronged the shark;

I think permaps two wronges in the pursuit of my vocation
I may have dropped a chance remark
Injurious to his reputation.
But from my youth have I been taught
(And schools I never would belittle)
That this lank monster always thought

But if the brute means no real harm,
And only is a bit capricious—
If one need never feel alarm
Lest he prove ill-disposed and vicious,
As Mr. Beebe has declared,
(And who am I, that I should doubt him)\*
I'm here to state that I'm prepared
To take back what I've said about him.

However, if while in the sea

(I have the instincts of an otter)
I see a fin approaching me
I'm going to hasten from the water.
This will not show that I'm inclined
To silly fits of feelish terror,
It proves that I should hate to find
That Mr. Beebe is in error.

[Copyright, 1936, by the Bell Syndies

†The Shark.

Of man as of a favorite victual.

The shark, so Mr. Beebe states,
Is little worse than other fishes;
Of course, he has his private hates—
And sometimes harbors evil wishes,
Yet, though the creature's appetite
Is always in the best condition.

approached the problem with the explana-tion that the Sabbath was made for man and not man for the Sabbath. Ever since I admire people who develop their minds and those who devel-op their bodies. But I think peo-ple who try to wholly remodel either have little to gain and their greatest gift to lose—their individ-nality. then the wastrels who play shinny or wind up their Fords on the first day of the week It is a pity that one man's theory of a fair interpretation of Sunday sport should trespass on another. It would be fine if

everybody could do as he liked without running into the preacher. The disposition of the advanced church is to approve such healthful, out-of-door pleasures as do not interfere with the standard hours of religious worship. It ought to be easy for a man to remain in good standing with the Almighty if he be in his pew at the Sunday morning service, although he toadies to his sportiveness by playing nine holes of golf

Going to the other extremes, I doubt that Irvin Cobb could be the man he is if he trained down to the proportions of the Apollo Belvedere. Nature never intended him for anything like that, and he couldn't be his great, lovable self if he weren't his great lovable self. Young people growing up within the church are forced to make a decision. They do. They give up their church. It is neither just to them nor the rest of the world that this

The handsomest couple I know are both heavyweights. The man weighs well above 200 and his wife is just the right size to look well beside him. Neither worries about weight and both have seen about weight and both have a sort of gracious majesty which is charming. They are simply them-

I know two very large men, one of whom writes under the nom-de-typewriter of Fatty Lewis. Fatty delights in his size and makes others delight in it. The other chap takes his tragically. I once heard Fatty remark, with an envious look at the other: "If he'd only take his shape humorously he'd be the most delightful man alive."

It is right for people to look the best they naturally can, but there are so many things of vastly more importance than one's shape that it's an awful waste of time to think too much of it.

The people the world cares mos for are those with the courage and strength of character to be themselves, not mental or physi-cal copy cats. For the world classes all imitators as small 'taters.

Whole Nation Shares Spoils One of the most delightful spot One of the most delightful spots in the vicinity of Kabul is the high-walled garden known as the Baher Bagh. In the corner of which is the grave of one of the greatest men that ever lived. Baher. "The Tiger," who founded the dynasty of the magnificent Moguls. This shrine is a place of pilgrimage not for Afghans alone but for people from all parts of Central Asia. It was in this garden, or just such another, that Baher made his plans to lead his Tartar horsemen and burly, nomads down to the rich plains of Panipat, near Delhi, where he fought one of the most decisive tattles of Asia in 1836. Such co-lossal booty fell into his hands that he was able to give \$10,000 to each of his chief officers and corresponding rewards in silver and rare silks to every one not only in his army but in his kingdom, so that every man, woman and child, slave and free, then living under his rule received a share of the

It's all right to take things as hey come, provided you know that to do with them.

light coupe struck a heavier car, rolled up on its hood and then rolled off again, killing a woman, was given yesterday before Judge McLucas and a jury by Edward A. Deeter, was making fifty miles an hour. He was on the witness stand all afternoon and will resume it today for cross examination.

Deeter is charged with mansiaughter in causing the death of Miss Pauline Graham, passenger in his machine. The accident occurred in Ventura Boulevard. June 21, last, when Deeter's car struck that of E. C. Morris of 5142 Encino street. light coupe struck a heavier car.

### FROM CHINA ADVOCATED

Faulkner, automobile man, in or-dering Mrs. Daisy C. Moreno, wife of Antonio Moreno, film star, to turn over to, him 100 shares of stock in the Los Angeles Speedway Association

stock in the Los Angeles Speedway Association.

Ernest E. Schroeter, trustee of the bankrupt estate, ordered Mrs. Moreno, according to the petition, to turn the stock over to him for the payment of \$7092.98 which she refused to do.

The stock was assigned to Mrs. Moreno by her former husband, J. M. Danziger, to whom it was given as collateral on a \$10,000 note. It developed during the case Mrs. Morepo did not know she possessed the stock until it was demanded by the trustee. The court held she was not an innocent purchaser and approved the action of the trustee.

#### THIRTEEN NEW CASES OF SMALLPOX IN CITY

reported in Los Angeles yesterday, coording to City Health Officer Parrish. Daily official reports Parrish. Daily official reports this week at the health bureau were: Sunday, three; Monday, nine, and Tuesday thirteen.

There have been a total of 227 cases reported his year, the records show. Thirty-eight cases were reported last week, compared with sixty-eight for the preceding week.

TRUCK AND LOAD VANISH

# Reimbursement Due to False Imprisonment Shawl-Like Wraps

# The troubles of Charles T. Meyers, a policeman, were laid before the City Council yesterday by Councilman Jacobson, who had read a letter from the patrolman, recting his arrest last December, his inearceration and subsequent acquitfal. Mr. Jacobson proposed to the Council that some means be found to repay Meyers for the loss he suffered as the result of his arrest. "This whole thing was just a frame-up," said Jacobson. "He was arrested because he arrested 1800 bottleggers last year. The grand jury ought to bear about it." In his letter to the Council, Meyers stated it cost him \$300 for bond, \$156 for incidental expenses and \$560 for an atterney to prove his innecence. "Tax mongy can be used only for municipal purposes," ruied Assistant City Attorney whitehead, "Whatever loss Meyers has suffered can be made the basis of a suit for damages for faise arrest." Cquneliman Hall, who is an attorney, backed Whitehead's statement, and made a motion that the communication be filed. The metion was lost, whereupon the matter was referred to the Mayor and Finance Committee for investigation. BOARD AGAIN REFUSES

# NOW is just the time

to start enjoying the Model 20 Compact

ATWATER KEN

RADIO

DO YOU KNOW that radio reception is at its best in February? It is. The next best month is March. The United

States Bureau of Standards says so. This means that the finest time of the year to enjoy broadcasting is NOW and the months just ahead.

If your home is not already blessed with Radio, now is the time. But-as you value your peace of mind and your investment - be sure to get a good set. Radio is too fine a thing to be spoiled by inferior instruments.

With an Atwater Kent Model 20 Compact and an Atwater Kent Radio Speaker you'll find justice done to Radio and to you. We know of no other set on the market today so completely satisfying in every way. It is beautiful, unobtrusive and simple. It gives you tone, volume, range of stations, selectivity. And it is reliable.

It has everything, including a fair price.

The right receiving set—the right radio speaker the right time of year-the right price. Any Atwater Kent Dealer will tell you how to combine the four. See him TODAY.

UNDERSEA PICTURE

MAURICE TOURNEUR TO DI-

Making a picture the scenes of which occur almost entirely under the sea is to be the next artistic task of Maurice Tourneur, who is to film Jules Verne's "The Mysterious Island" for Metro-Goldwyn

This undersea photography scientifically the most interesting development in years of photoplay art. It is quite likely, also, that a great deal of the picture will be

development in years of photoplay art. It is quite likely, also, that a great deal of the picture will be made in colors.

The nunderwater scenes will be made on the ocean bottom off Nassau, Bahama Islands. by means of the J. B. Williamson underwater photography apparatus. This is a series of tubes equipped with cameras by which the wonders of underseal life were first photographed for science.

Lights will be carried underwater in diving bells, and the actors, in diving uniform of a special design, will appear actually on the ocean bottom, as related in the fantastic novel.

Production will start on or about March 1, according to studio plans. Harvey Gates is now at work on the finishing touches of the scenario of the story, which is to be produced by Hunt Stromberg.

The entire cast of the new plcture will go to Nassau, where the Williamson laboratories will be the headquarters for operations.

The story deals with the adventures of one Capt. Nemo, strange here of "Twenty Thousand Leagues Under the Sea," the book being a sequel to the latter tale.

When Capt. J. E. Williamson invented the undersea photography process, about twelve years ago, the enterprise was a sensation.

A film made at the time near the Bahamas was shown all over the country and was considered one of the wonders of the age. It was widely discussed in papers and magazines.

Scenes for the picture were made by the process when Universal's "Twenty Thousand Leagues Under the Sea" was filmed with the late Allen Holubar in the leading role.

Unable to care for the throngs that have swooped down upon the theater to see Ernst Lubitsch's

Then, for some reason, nothing more developed along the line of undersea photography.

Now, however, it is intended to utilize the process to the utmost extent, and the Metro-Goldwyn-Mayer people promise a most elaborate and unique production.

Dorothy Phillips In It

Dorothy Phillips In It

Dorothy Phillips Metro-Goldwyn-Mayer's newest star, has been given her first featured part underher new affiliations. She will play Claire, the wife of Toto, in the film "Toto."

It appears certain that Miss Phillips will again take her place in the hearts of the fans, a place she never really lost, but which she voluntarily relinquished at the time of the death of her husband, Allen Holubar, who passed away about two years ago.

Nocly Edwards Signs

The services of that jolly young comedian, Neely Edwards, who entered the free lance list of film players on the expiration of his Universal con-

later, moves to its new home two blocks south. But the farewell week is going to be a most notable event in that a special bill, with a long series of special features, will make it memorable.

It is headed by Adele Rowland (Mrs. Conway Tearle) who will be seen and heard in a series of story songs, in her tinimitable manner. Doc Baker, the famous Protean artist, brings a new revue along the same lines, but with some new folk, including Dorothy Manners.

Jack Benny will entertain also; so will "Amateur Night in London," a new sort of act, and another feature will be Ben Meroff and his high hatters band. All these acts are picked to give a proper finish to the finale. Also included in the list are Harrison and Dakin, in a clever act with Benny Oakland, "The Tree of Us." Stanley and Birnes, two clever chaps, and Reynolds, Donegan company expert roller skaters, are the others

MISSION PLAY SUNDAY AFTERNOON

# IN ROLE OF THAIS

BY ISABEL MORSE JONES

Tempered Portrayal Alexandrian Euriches Massenet Opera

'Thais" as sung by the San Caro Opera Company at a well-attended matinee yesterday at the Philharmonic Auditorium, was a triumph for Bianco Saroya and a more than moderate success for Marlo Valle singing "Athanael."

The presentation of this spiritually tragic work of Massenet was a highly creditable performance in every way due to the artistic directing of Carlo Peroni and the ease with which the following cast met the histrionic demands of the, opera: "Thais," sung by Saroya: "Athanael," by Valle; "Nicias," by Tomarchlo: "Polemone." by De Binsi; "Cobina" and "Myrtale," by Schaiker and "Crobille," by Falco.

Saroya is a most versatile artist. "Thais," the role so dedicated in the public mind by Mary Garden because of her acting, was made even more appealing to the ear by Saroya because of her unmistakable gifts vocally and her way of letting the part grow gradually under her delineation without any attempt at forcing either the music or the acting. She is convincing as an actress and never tiring as a singer. The latter is a feat of well-directed reserve, for at times opera drags, musically.

Valle was especially effective in his impassioned solos with Saroya. Their voices were well blended and he seemed at his best when singing with her. He has a tendency to watch the conductor overmuch, but, perhaps, that is better than the uncertainty which often accompanies a new role.

Pletro Marino, violinist, played the celebrated "Meditation" effectively.

Interest increase in Bernice Schaiker when one knows that she tended matinee yesterday at the Philharmonic Auditorium, was a

tively.

Interest increases in Bernice Schalker when one knows that she was trained by Karleton Hackett, the eminent music critic of Chicago. She is a credit to him. She never overacts and her voice is pleasing, although not of great power or resonance.

"Carmen" will be sung tonight with Lorna Doone Jaxon in the title role and Salazar singing Don Jose.

#### BIG THREE **FEATURES** SCHEDULED

Hillstreet Joins First-run Picture Theaters Through **New Booking Contract** 

the Granda Theater in San Francisco, com-ing to the Met-tropolitan The-ater on the 19th inst., as general man-Beginning March 1 the Hillstree Theater steps out in a class by itself as a first-run Paramount, Metro-Goldwyn-Mayer and First National Picture exhibitor in con-junction with its Orpheum Cir-

if this Lubitsch oppus ran for three weeks.

Admirers of the gracious Irene Rich have never seen her in a more delightful role than she has in this instance.

The surprise and rollicking hit of the production falls to Edward Martindel as "Augustus." It would seem he was "made for this part."

Bert Letell. Ronald Colman and May McAvoy have created a furore among their admirers in their respective roles.

Orpheum Plans

Big Farewell

To Old Home

The last week of Crpheum bills in its present theater will open Monday matinee next.

Thereafter, the Orpheum, a week lawer, moves to its new home two blocks south. But the farewell week is going to be a most notable event in that a special bill, with a long series of special features, will make it memorube. It is headed by 'Aclee Rowland (Mrs. Conway Tearle) who will be seen and heard in a series of story songs, in her inhinitable manner.

# SCENIC REGION TRAEGER TRAILS FINLINSON COMMUNITY

Decision Today in Chicago Who Will Get Fronk; Richardson's Confidence in Keyes Lower

With Gov. Richardson backing Sheriff Traeger for the job, and Dist.-Atty. Keyes exerting his influence in favor of Acting Captain of Detectives Finlinson, the much-disputed question of who will bring back to Los Angeles J. K. Fronk, indicted here as a bank swindler, probably will be decided by Chicago authorities today or early to morrow, it was indicated by eastern dispatches last night.

**FOR CHURCH** 

That Finlinson holds several advantages in the race, however, was apparent. First, he was expected LAST RITUAL to arrive in Chicago last night, while Sheriff Treager left Sacrafor recreational purposes the vast scenic area comprised within the Sierra Nevada Mountain section on tiguous to Southern California, mit it Finlinson will be in a posi-

# SUSPECT BRANDED BY PERFUME

Witness in Mail Robbery Identifies Thick, Heavy Fragrance Clinging to Frank Tesciona as Like That Used by Hold-up Man

Frank Tesciona's love for a heavy, thick smelling perfume yesterday branded him as a mail robber in the testimony of James A. Burke, registered mail guard, before United States District Judge James and a jury. Burke said he rode several blocks with the mail robbers and was nearly overpowered by the fragrance

overpowered by the fragrance exuded by one of them. He identified Tesciona positively as the perfumed man.

The feature of the trial of Tesciona and his wife, Mrs. Dorothy Lee Tesciona, yesterday was the bringing into court under a heavy guard of deputy marshals of more than \$500,000 in securities recovered after the robbery. The robbers got \$523,000 in stocks and bonds and all but a small amount was recovered. Most

of the eleven witnesses heard, including A. H. Evans and A. D. Carillo of the Federal Reserve Bank, and Stewart Frasier of E. H. Rollins & Co., spent their time identifying various packages of securities. The case will continue today, and may be finished this week so far as the Government's case is concerned. Mrs. Genevieve Derschner, sister of Tesciona and companion of Mrs. Tesciona on the latter's asserted flight to Chicago with Tesciona's share of the plunder, is expected to be a Government witness.

Four others indicted with the Tescionas have pleaded guilty. The mail truck robbery took place October 8, last. The prosecution is in the hands of Assistant United States Attorneys Ohannessan and Neville and the defense of John F. Groene, Max Yewis and Guy Eddie.

of the Chamber of Commerce foreign trade committee suggesting
that a conference be called between commercial representatives
of the Southland and the Mexican
republic for the purpose of outlining agreements which would operate to mutual advantage.

While the meeting would necessarily be unofficial, nevertheless it
probably would determine a common ground which, carried forward through proper channels
might "have very beneficial results," Clarence Matson, manager
of the foreign trades department,
was informed by the directors.

The purpose of the meeting
would be two-fold, the approving
resolution stated, first, the possibiity of negotiating a reciprocal tariff
treaty between mexico and the
United States to the nutual advantage of both, and with due regard
to the interests of the West Coast
of Mexico and the industrial Southwest; and, secondly, the matter of
discussing international quarantine
regulations which would operate
to greater advantage than those
now in force. Because of this latter phase, the directors said, quarantine officials should be included
in the proposed conference.

#### **IDENTIFIED AS** DARING BANDIT

Prisoner Taken in Gun Duel Declared Bank Robber

Long Criminal Record Laid to Beach Suspect

Young Bride of Ryan Held as Likely Witness

By a "Times" Staff Correspondent LONG BEACH, Feb. 3.—Close upon the heels of his failure early today to commit suicide by strangulation, Phil F. Ryan, allas strangulation, Phil F. Ryan, allas "Red" Ryan captured by a policeman here last night after a desperate gun duel, was identified by deputy sheriffs as one of the trio who held up and robbed a bank at Lynwood, near here, on April 21, 1925. A long criminal record, dating back to 1897, including robberies and other crimes, which landed Ryan in State penitentiaries for several years, was uncarthed by Fred B. Kuth, superintendent of identification, this morning.

tlaries for several years, was unearthed by Fred B. Kuth, superintendent of identification, this morning.

Ryan's capture last night put to an end a national search conducted by William J. Burns operatives and deputy sheriffs of Los Angeles, it was said today by Deputy Sheriff Heller.

Jean Ryan, eleven months' bride of the asserted notorious bank bandtt, was taken into custody in Los Angeles by Detective Sergeants Glenn and Jensen at 4 o'clock this morning as she stepped from a motor stage arriving from San Francisco. The girl, scarcely more than 17 years of age, was to have rejoined her husband today, after a separation of more than a month, she said.

Ryan is booked here on charges of assault with intent to commit murder and burgiary, the result of the robbery of the Buster Drug Store last night and the subsequent gup battle he engaged in with Pairolman Claud Reusch when the latter attempted to effect Ryan's capture in the deserted harbor district. Ryan emptied his revolver, containing six builets, at Patrolman Reusch during the battle, which occurred with officer and fugitive barely thirty feet apart. Five of the bullets from Ryan's gun pierced the clothing of the officer. One shot from the officers yun entered Ryan's knee and as the policeman closed in on him, Ryan continued to snap his empty pistol in the policeman's face. He was subdued after a struggle.

"I did my best to kill that cop, but he was lucky. I'll say this for him, he is sure game. I wish now that he had killed me," Ryan told newspaper men and officers while his wounds were being dressed last night by Police Surgeon Sweetal. To the latter he confided that he has a long criminal record.

An attempt by Ryan to take his own life was frustrated early this morning by Jailer McGinnity, who found him in his cell with a leather best twisted tightly about his throat. He was semiconscious when the jailer removed the strap.

# THOUSANDS PASS BIER

Miss Negri left Albuquerque at midnight Tuesday, where it was reported she might stop at Gallup, N. M., to meet Valentino. The latter passed through Albuquerque yesterday. Miss Negri was considerably perturbed when asked about her reported marriage to Valentino and declared she knew nothing about it and had "never thought of it."

She has a drawing room and a compariment on the California Limited.

PUBLIC INVITED TO

HEAR SAFETY TALKS

A safety rally for employees and their friends will be conducted by the local branch of the Ford Motor Company tomorrow might in the auditorium of the Chamber of Commerce. The general public has been invited to attend by R. V. Dorn, factory and safety engineer of the local plant. J. W. Kerrigan, chairman of the California State Industrial Accident Commission, T. W. Osgood, superintendent of the commission, John A. McKiller and Sergt. Johnson of the police traffic department, will be the speakers. A safety motion picture will be shown and an entertainment program given through the courtesy of the West Coast Theaters. Music will be supplied by an orchestra from the Southern California Music Company.

shortage has been accumulating over a period of three or four years. The amounts the audit shows never went higher than \$4000 and some as low as \$100. Regular audits failed to show the shortage and it was not until the special audit was ordered that it became known.

Wednesday the Goodyear officials stated that the entire reported shortage seems to be principally centered in that portion of the company accounts having to do with wholesale tire dealers. More than two million transactions go through the book each year, the records show, and therefore the present audit is of such nature that the auditors have so far been unable to complete the work.
